

Credit Name: CSE 2110 Procedural Programming 1
Assignment Name: Password

What error message did you encounter (if any)?

None

What unexpected behavior did your program exhibit?

When prompting the user it's supposed to show the what attempt your on, does not show

What caused the issue? (e.g., syntax error, logic error, incorrect function usage, etc.)

Not using any of the function

Include a screenshot of specific lines of code.

```
for (int attempt = 1; attempt <= maxAttempts; attempt++) {  
    System.out.print("Welcome to Login, please enter the password: ");  
    String enteredPassword = input.nextLine();
```

How did you fix the issue?

Added the function to show the attempt

Provide the corrected code or solution using a screenshot.

```
for (int attempt = 1; attempt <= maxAttempts; attempt++) {  
    System.out.print("Enter password (attempt " + attempt + " of " + maxAttempts + "): ");  
    String enteredPassword = input.nextLine();
```
